# Ipswich Public Schools

## What is happening with the primary domain for the school district?

The Ipswich Public Schools primary domain is changing from "**ipswichschools.org**" to "**ipsk12.net**".

## Why is the school's primary domain name changing?

This change is necessary is order to consolidate all the schools in the district on one secure internal network. The result will be easier network assess for students and staff, a more streamlined and manageable system and improved network connection reliability. The school district is trying to save money through consolidation, while improving service through standardization without limiting new technology options or restricting multiple platforms.
