

## **SCHOOL COMMITTEE OPERATIONAL GOALS**

The School Committee is responsible to the people for whose benefit the school system has been established. The Committee's current decisions will influence the course of education in our schools for years to come. The Committee and each of its members must look to the future and to the needs of all people more than the average citizen finds necessary. This requires a comprehensive perspective and long-range planning in addition to attention to immediate problems.

The School Committee's primary responsibility is to establish those purposes, programs, and procedures that will best produce the educational achievement needed by our students. The Committee is charged with accomplishing this while also being responsible for wise management of resources available to the school system. The Committee must fulfill these responsibilities by functioning primarily as a legislative body to formulate and adopt policy, by selecting an executive officer to implement policy, and by evaluating the results. It must carry out its functions openly, while seeking the comments of public, students, and staff in its decision-making processes.

In accordance with these principles, the technique will involve:

1. Annually set SMART goals and norms with indicators for the year.
2. Annually co-construct goals for the Superintendent.
3. Conducting a concrete and periodic review of performance across these goals.
